PROTOCOL TOOLKIT

for Developing a Response to Victims of Human Trafficking in Health Care Settings
ABOUT HEAL TRAFFICKING

OUR VISION
A world healed of trafficking

OUR MISSION
Mobilizing interdisciplinary professionals to shift the anti-trafficking paradigm toward approaches rooted in public health and trauma-informed care

EXECUTIVE DIRECTOR
Hanni Stoklosa, MD, MPH

BOARD OF DIRECTORS

EXECUTIVE COMMITTEE
Susie Baldwin, MD, MPH, FACPM
President

Makini Chisolm Straker, MD, MPH
Secretary-Treasurer

Kimberly Chang, MD, MPH
Liaison on Community Health

Nicole Littenberg, MD, MPH
Liaison on Violence and Trauma

ADVOCACY COMMITTEE CHAIRS
Abigail English, JD
Vicki Rosenthal, MSW

DIRECT SERVICES COMMITTEE CHAIRS
Katherine Hargitt, PsyD
Anita Ravi, MD, MPH

EDUCATION AND TRAINING COMMITTEE CHAIRS
Tonya Chaffee, MD, MPH
Jordan Greenbaum, MD

MEDIA AND TECHNOLOGY COMMITTEE CHAIR
Holly G. Atkinson, MD, FACP, FAMWA

PROTOCOLS COMMITTEE CHAIR
Jeffrey Barrows, DO, MA

RESEARCH COMMITTEE CHAIR
Emily Rothman, ScD

BOARD MEMBERS AT LARGE
George L. Askew, MD, FAAP
Mariam Garuba, MD
Suzanne Poppema, MD
AUTHORS

Susie Baldwin, MD, MPH, FACPM
President, Board of Directors
HEAL Trafficking;
Los Angeles County Department of Public Health* (Los Angeles, CA)

Jeffrey Barrows, DO, MA
Chair, Protocols Committee
Board of Directors
HEAL Trafficking;
Founder, Gracehaven;
Chair, HT Commission
Christian Medical Association (Columbus, OH)

Hanni Stoklosa, MD, MPH
Executive Director
HEAL Trafficking;
Department of Emergency Medicine
Brigham and Women’s Hospital
Harvard Medical School (Boston, MA)

EDITORS

Susie Baldwin, MD, MPH
Jeffrey Barrows, DO, MA
Anna Gribble, MSW, MPH
Suzanne Poppema, MD
Hanni Stoklosa, MD, MPH
Holly G. Atkinson, MD

CONTRIBUTORS

Hope for Justice

HEAL Trafficking Protocol Committee

Anonymous Survivor

Mariam Garuba, MD
Board of Directors
HEAL Trafficking;
Forensic Psychiatrist
Manhattan Psychiatric Center (New York, NY)

Jordan Greenbaum, MD
Chair, Education and Training Committee
Board of Directors
HEAL Trafficking;
Stephanie Blank Center for Safe and Healthy Children
Children’s Healthcare of Atlanta (Atlanta, GA)

Anna Gribble, MSW, MPH
Research Assistant
Brigham and Women’s Hospital (Boston, MA)

Patrick L. Kerr, PhD
Associate Professor
Licensed Clinical Psychologist
Director, WVU Dialectical Behavior Therapy Services Program
West Virginia University School of Medicine (Charleston, WV)

Nicole Littenberg, MD, MPH
Executive Committee
Board of Directors
HEAL Trafficking;
Clinical Director
High Risk Victim Clinic;
Co-Founder
Pacific Survivor Center (Honolulu, HI)

Megan K. Mattimoe, JD
Executive Director
Advocating Opportunity (Toledo, OH)

Aisha Mays, MD
Assistant Clinical Professor
UCSF Department of Family and Community Medicine (San Francisco, CA)

Tina Peck, RN, BSN, SANE-A, SANE-P
Program Coordinator
Via Christi Hospitals (Wichita, KS)

Suzanne Poppema, MD
Board of Directors
HEAL Trafficking;
Emerita Clinical Associate Professor
University of Washington;
Director, International Medical Consulting (Edmonds, WA)

Melanie Raffoul, MD
Assistant Professor
Ronald O. Perelman Department of Emergency Medicine
NYU Langone Medical Center (New York, NY)

Martina Vandenberg
Founder and President
HT ProBono Law Center (Washington, DC)

Anne Victory, HM, RN, MSN
Education Coordinator
Collaborative to End HT (Cleveland, OH)

REVIEWERS

Anonymous Survivor

Harrison Alter, MD, MS, FACEP
Associate Chair for Research
Department of Emergency Medicine
Highland Hospital - Alameda Health System
(Oakland, CA)

Holly Austin Gibbs
Patient Care Services Program Director
Dignity Health
(Sacramento, CA)

Makini Chisolm-Straker, MD, MPH
Treasurer, Board of Directors
HEAL Trafficking;
Assistant Professor
Department of Emergency Medicine
Icahn School of Medicine at Mount Sinai
(Brooklyn, NY)

Marti MacGibbon, CADC-II, ACRPS
Humorous Inspirational Speaker, Author
Addiction Specialist
(Sacramento, CA)

Ima Matul
Survivor Coordinator
Coalition to Abolish Slavery and Trafficking
(Los Angeles, CA)

Dave Rogers
U.S. Program Director
Hope For Justice
(Nashville, TN)

Martina Vandenberg
Founder and President

TABLE OF CONTENTS

PART I: INTRODUCTION
6 Purpose of the toolkit
9 Integration with existing policies and procedures
9 Tenets of trauma-informed care
10 Benefits of protocol development

PART II: STEPS FOR PROTOCOL DEVELOPMENT
11 Step 1: Identify community multidisciplinary responders
17 Step 2: Engage non-medical community stakeholders
19 Step 3: Engage medical stakeholders within your community
21 Step 4: Understand human trafficking and health generally and locally
22 Step 5: Create and convene an interdisciplinary protocol committee
23 Step 6: Develop multidisciplinary treatment and referral plan

PART III: PROTOCOL COMPONENTS
24 Process for identifying patients at risk for trafficking
24 Guidelines for interviewing high risk patients
26 Strategies for interviewing patient alone
27 Safety considerations
28 Multidisciplinary treatment and referral plan
30 Strategies for working with minor patients
31 Strategies for responding to patients who decline assistance
32 Procedures regarding documentation
34 Guidelines for forensic examination
36 Procedures for external reporting

PART IV: MOVING FORWARD
38 Education and training
40 Distribution
40 Monitoring and evaluation
42 Ongoing implementation
43 Conclusion
• Interpreters should utilize a trauma-informed approach, and monitor for signs of stress in patient.
• Interpreters should translate verbatim all questions and answers.
• Phone translation is not ideal, but may be better than a translator from within the local immigrant community, depending on the situation.
• Consider the National HT Hotline translation services: trained interviewers are available in over 200 languages (1-888-373-7888).
• Decisions about interpretation systems may vary on a case-by-case basis depending on the availability of resources and the specific potential victim.
• State Department fact sheet on interpreters at state.gov/j/tip/rls/fs/2015/245185.htm.

3. STRATEGIES FOR INTERVIEWING PATIENT ALONE

▸ Assess power dynamics between patient and accompanying person(s).
▸ Assess patient’s ability or desire to speak freely about things that may be bothering them.
▸ Whenever controlling dynamics are suspected and the patient is accompanied by someone else, including family members, have them wait elsewhere.
▸ Family-originated trafficking is common in the U.S. Therefore, options regarding the process of separating minors from family members who are potential traffickers should be discussed in advance with officials from child protective agencies.
▸ Decide who is to do the separation.
▸ Reasons to give for separating:
  • Diagnostic test in another area.
  • “Clinic or hospital policy to interview patient alone.”

**TIP: INTERPRETERS**

Victims often feel shame about their experiences and may fear physicians, immigration, and law enforcement authorities as well as their traffickers. They may resist sharing their experience through someone from the same culture, particularly if they are from a small or close-knit immigrant community.

**TIP: ASK ONLY WHAT YOU REALLY NEED TO KNOW**

Be judicious with the information you request from patients, particularly about traumatic events and from patients who may also undergo a forensic interview (more information about forensic interviewing follows in Component 8).
• Ask the potential controlling person to step outside of the examination/labor and delivery room to assist with paperwork, a phone call to schedule a laboratory visit or medical referral, etc.

▶ What to do if the person accompanying the patient refuses to separate and threatens to leave with the patient

• If the accompanying person refuses to separate from the patient, the decision of whether or not to continue to push for separation should include the following:
  » Evidence of aggression on the part of the controlling person
  » An assessment of the health and safety of the patient
  » A realization that calling security or law enforcement may not be in the best interest of the patient or their ability to return for another visit
  » A desire not to raise suspicion within the potential trafficker thus jeopardizing the future safety of the patient
  » Presence or absence of indicators of prior assaults and abuse

TIP: WORKING WITH PATIENTS — WHAT IF THE SUSPECTED TRAFFICKER WON’T LEAVE?

It is best to interview the patient alone but if a patient refuses to be separated from an accompanying person, it may be safer for the patient to allow the companion to remain. The benefits vs. harms of working with a patient in the presence of a potential exploiter must be evaluated on a case-by-case basis. If the trafficker thinks there is a threat to them because they are excluded from your conversation, you may risk the opportunity to provide the patient medical treatment or risk potential harm to the patient after the visit.

TIP: SAFETY PLANNING

Safety planning varies greatly depending on how the patient views their trafficking situation and whether the patient wants to stay in the situation, is in the process of leaving, or has left. Trafficked people may return to exploitative situations repeatedly before exiting permanently.

Do not take patients’ decisions to stay in abusive situations or relationships as an indication that your efforts have failed; your supportive words and kind actions carry weight and may make a difference in the future.
